

## Curriculum Map Assignment – C&I 602

### *Curriculum Map – CI 602: Curriculum and Teaching Principles*

This document provides a high-level curriculum map demonstrating alignment between learning objectives, instructional strategies, and assessment methods as explored in CI 602.

Structure:

- Course Outcomes: Broad goals defining what learners should achieve
- Weekly Objectives: Specific, measurable targets for each module
- Instructional Strategies: Methods used to support achievement (e.g., direct instruction, collaborative learning)
- Assessments: Tools and criteria used to evaluate mastery (e.g., rubrics, quizzes, reflective writing)

Sample Format:

Week	Module/Topic	Weekly Objective	Instructional Strategy	Assessment Tool
1	Curriculum Frameworks	Understand curriculum frameworks	Direct instruction	Reflection journal
2	Backward Design Principles	Apply backward design principles	Case study discussion	Curriculum blueprint
3	Learning Outcomes & Alignment	Analyze alignment of outcomes	Group collaboration	Alignment worksheet
4	Assessment & Evaluation	Develop assessment tools	Workshop & peer review	Sample assessments
5	Curriculum Implementation	Explore implementation strategies	Simulation/role play	Implementation plan
6	Reflective Practice in Curriculum	Foster reflective practice in teaching	Reflective journaling	Reflective essay
